

Run Smart™

# FREIGHTLINER

## CASCADIA® XT SLEEPER

# CASCADIA® XT SLEEPER

## A smart choice for business.

The Cascadia® features a quiet ride and a spacious, comfortable cab that accommodates drivers of every shape and size. Outside, the Cascadia's dramatically sculpted exterior reduces aerodynamic drag to an unprecedented minimum, ensuring substantial fuel savings. The XT sleeper is available in 48," 60" and 72" configurations and is designed for applications where a low height profile is desirable. Whether you're long haul or regional, running smart has never been so easy.

### COMFORT

- Ergonomic seats are two inches wider, taller and longer than most
- Generous two feet of free space between seats provides easy sleeper access
- Lateral, lumbar and seat adjustment options offer more comfort and leg room
- Advanced HVAC system provides eight blower speeds
- State-of-the-art climate control delivers 20 percent greater airflow than typical systems
- High-tech thermal and noise insulation throughout cab and sleeper for an ultra quiet environment
- Luxurious, spacious 72" sleeper has ample accessible storage
- Stand-up comfort with 78" of headroom at the edge of the bunk

### SAFETY

- Automotive-style wraparound dash puts switches and controls within reach
- Foot-activated tilt-telescoping steering column allows precise adjustment
- Steering wheel-mounted controls keep hands on wheel and eyes on road
- Backlit gauges in three available packages make controls readable day or night
- Lightweight foldaway mirrors decrease cab and hood damage

### RESPONSIVENESS

- Steering wheel-mounted Freightliner SmartShift® control enables optional automated manual transmission
- Wheel cut up to 50-degrees allows for tight turning radius

### VISIBILITY

- Low-mounted dash and sloped hood maximize visibility from the cab
- Large windshield and more mirror coverage increase all-around visibility

### EFFICIENCY

- Extensive wind tunnel tested design reduces drag to optimize aerodynamics
- Available with side fairing and roof fairing
- SCR technology for improved fuel economy and lower emissions
- Fuel-efficient engine choices:
  - Detroit™ DD13® (350-470 hp)
  - Detroit™ DD15® (455-560 hp)
  - Detroit™ DD16® (475-600 hp)
- Cummins® ISX12 (310-425 hp)
- Cummins® ISX15 (400-600 hp)

### SERVICEABILITY

- Convenient Power Distribution Center groups all fuses and circuit breakers in a single location
- Standard headlamp bulbs are widely available and easy to access without tools
- Rugged three-piece bumper reduces repair costs with replaceable end caps
- Detachable three-piece rain tray provides quick rear engine access
- Gas strut-assisted hood opens and closes effortlessly
- Roped-in windshield can be replaced quickly
